

Introducing Credit Assure™

CreditXpert Inc.'s newest service, Credit Assure™, automatically scans credit files for opportunities to raise credit scores based on accuracy or credit management updates. Intelligent, automatic, and easy, Credit Assure inspects every file so you don't have to.

Credit data scanning

Credit Assure alerts you to opportunities and how big they are, so you don't miss out. Running in the background, scanning all your credit files, and utilizing proven CreditXpert® optimization and simulation technology, Credit Assure automatically presents findings on every file. You don't need to know anything about credit scoring or spend time scouring credit reports—Credit Assure gives you the answers.

Credit reports just got better

Suddenly credit reports are more useful. It has been too time consuming and difficult to scrutinize every file for accuracy and opportunity. Not anymore. Now Credit Assure highlights instances where credit scores are artificially low due to inaccurate information. This helps you approve more applicants, make better offers, and close more loans.

Availability

Credit Assure will present a potential score improvement value below each credit bureau score, in the "credit results" screen of your credit provider's web platform. To receive Credit Assure, you must be enabled for Credit Analyzer. Add the optional Error Detection mode within Credit Analyzer (CreditXpert Detective™) to get the best results from Credit Assure.

Best of all, as of Sep. 1, 2006 Credit Assure will be included on every credit file at CCI's expense through the end of the year!

CREDIT ASSURE BENEFITS:

Alerts you to opportunities you might have overlooked

Helps you approve more applicants

Helps you make better offers and close more loans

Look for this logo to make sure the credit files you are using have been scanned.

Simply click on the potential score improvement value to be linked to the page where you can order Credit Analyzer. Once in Credit Analyzer you can find out how your applicant can obtain the score improvement and other useful insights.
